## **Rubber on Poly Wheels - RPW:**

- Shock absorbent.
- Quiet operating movements.
- Cushioned Grey Rubber tread.
- Durometer 60 to 70 Shore "A".
- Excellent for washing environments
- Grease fitting in the hub for lubrication.
- Resistance to chemicals, water and steam.
- Roller/Ball/Delrin bearing for easy operation.
- Thermoplastic Rubber molded on to a Polyolefin wheel core.
- Operating temperatures minus 45 to plus 180 degrees Fahrenheit.
- Unique mechanical Inter-locking system between core O.D. and tread.

| Wheel    |       |            | Bearing          |         | Part Number          | ~Capacity<br>(in pounds) |
